

# FIRESTAR / XP

ADVANCED OUTDOOR FURNACE MONITORING SYSTEM

FIRESTAR II **ELECTRONIC CONTROLLER**

## BRAINS, MUSCLE, HEART.

Central Boiler engineers approach wood heating like luxury car designers approach cornering a curve. The result is an advanced controller at the heart of every Central Boiler furnace\*\* that directs all aspects of the wood-burning process automatically. It works in such seamless harmony that it might even make you forget you're operating an outdoor wood furnace.

## FIRESTAR XP WI-FI MODULE

# STAYING CONNECTED.

Stay connected to the furnace that saves you money on your heating bills from almost anywhere in the world. Adding the optional FireStar XP wi-fi module keeps you in constant contact with your Central Boiler furnace if you're just across town having dinner or half way around the world enjoying your vacation on the beach.

# GO AHEAD SHOW IT OFF TO YOUR FRIENDS

It's a great feeling to know the outdoor furnace you trust to keep your house warm and comfortable is running the way it was designed, even when you're miles away from home. So go ahead, pull up the XP's dashboard on your smartphone and hand it to a friend. The priceless look on their face will only be overshadowed by the look of pride on yours.

FIRESTAR **XP** TEXT MESSAGING

## WHO SAYS YOU CAN'T TAKE IT WITH YOU?

You carry your favorite music, maps, apps, stations, destinations, followers and friends with you everywhere you go. Why would you leave your outdoor furnace at home? With the optional FireStar XP and your smartphone (or any web-enabled device), you won't have to. This industry-exclusive feature lets you stay connected to your Central Boiler furnace with customizable text messages, informative charts and a real-time operational dashboard.

E-LINK TECHNOLOGY

## MONITOR YOUR FURNACE'S HEARTBEAT

With the FireStar XP and the real-time graphing interface, not only do you have up-to-the-minute information, but you can also see how your furnace has been operating over a period of time. With a little experience you'll learn how factors like heat load, weather conditions, wood quality and proper maintenance can affect its operation. That can help you optimize the operation of your furnace.

CENTRAL BOILER **TECHNOLOGY**

## THE BRAND THAT DELIVERS MORE THAN WARMTH

Central Boiler has always been the leading name in safe, comfortable and efficient wood heat. Today, we're pushing the traditionally accepted notions of heating with wood to new limits by introducing systems that are cleaner and more efficient than ever before. Innovative ideas and cutting-edge technologies highlight these systems that give you peace of mind from anywhere in the world, or actually teach you how to operate your furnace most efficiently.

Today, Central Boiler's commitment to advancing wood-heating technology continues with the FireStar XP.

When the FireStar XP is paired with your Central Boiler outdoor furnace, it empowers you to view important operational data in real-time from anywhere\*. Dashboard gauges, charts and graphs are easy to read and customizable. You can even choose to have the FireStar XP send texts or emails when certain events like running out of wood occur.

Putting you in control. Giving you peace of mind. That's what the FireStar XP is all about.

\*Requires data plan to enable remote access. For a limited time, data plan is provided free of charge for first two years. FireStar XP wi-fi module, wireless router and internet required. Screens are simulated and may differ. Product specifications and appearances are subject to change without notice. \*\*FireStar II controller and optional FireStar XP are available on select Central Boiler outdoor furnace models. See your dealer or visit website for details.
