Geothermal (Ground Source Heat Pump)

This horizontal assembly must not exceed a height of 4 inches above top of water heater.

For illustration purposes only, water heater styles may vary.

NOTE
Installer must comply with all applicable local, state and federal codes.

NOTE
Installer must confirm adequate air flow after heat exchanger is installed.

NOTE
To avoid potential freeze-up, make sure the heat exchanger is installed more than 5 in. above or away from the evaporator coil.
